FlexRoller™

Patented roller shelf installed in stores worldwide. It automatically front-faces products in all environments, delivers validated sales uplift, operational efficiency and optimised shelf space.

FLEXROLLER™

- Sits on top of existing substrate shelf
- 4-6 degree shelf angle required to front product

FLEXROLLER™ WITH RISER

- Sits on top of existing substrate shelf
- Includes support leg to create needed angle to front product

FLEXROLLER™ WITH GONDOLA

- Integrated in shelf to replace existing flat shelves
- Automatically creates angle to front product

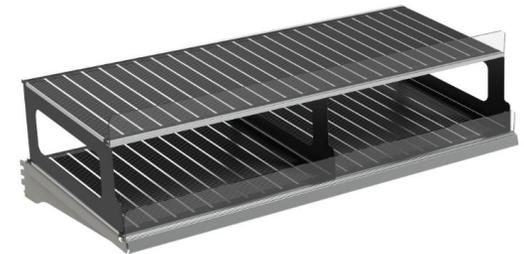

FLEXROLLER™ WITH PULL-OUT GONDOLA

- Roller shelf extends fully out of the shelf like a drawer
- Ideal for stocking product from the back in tight vertical spaces

FLEXROLLER™ WITH PARTIAL PULL-OUT GONDOLA

- Roller shelf extends partially outside of the shelf
- Ideal for stocking product from the back in tight vertical spaces

FLEXROLLER™ MULTI STACK

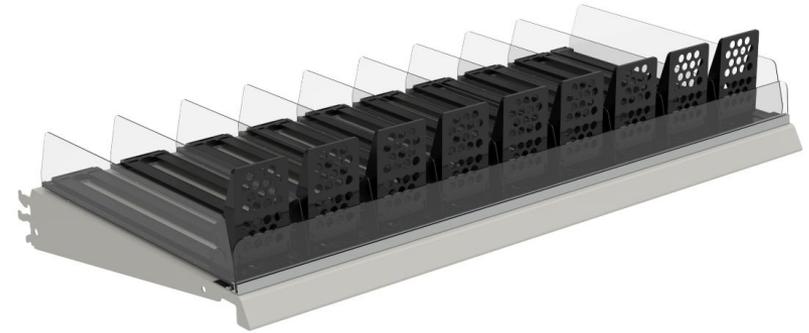

- Multiple layers of FlexRoller™ to stock more product vertically
- Versatile solution for a variety of spaces, including stand-alone display

ProPusher™

Spring loaded; shelf management systems designed to front products to the last unit. Adjustable product lanes and various attachment options allow easy execution in many retail environments.

**HANGING PROPUSHER™**

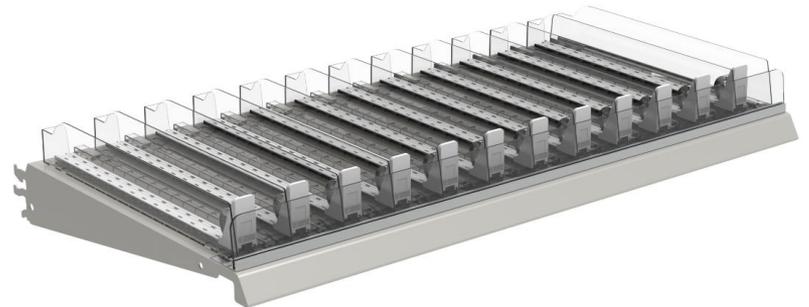

- Components install onto back bar - no shelf required
- Enables easy restocking and FIFO stock rotation

**VERSA PROPUSHER™**

- Installs on existing shelving
- Lane width can be adapted to the products

**CONTROLLED PROPUSHER™**

- Slow moving pusher for delicate items
- Simple and easy setup

**EASY PROPUSHER™**

- Fronts a wide assortment of product shapes, sizes, and weights
- All components mount to one front rail

CanRoller™

Space-saving, flexible, and efficient merchandising system for single-serve cans. The innovative multilevel design streamlines operations, maximizes revenue, and enhances the product presentation.

- Sits on top of existing substrate shelf
- Rear feet create an optimal fronting angle
- Adjustable lane width
- Clear front allows for full labeling presentation
- Available in two depths

INCREASED REVENUE

BETTER ADAPTABILITY

MULTIROLE FLEXIBILITY

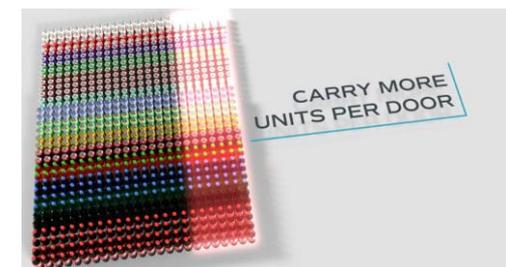

ENHANCED VERSATILITY

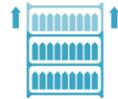

FRONT OR BACKLOAD

EvoRack™

Improving the customer experience and operational efficiency is what sets EvoRack™ apart from others. In addition, the efficient upright design and compressed notch increments optimises space.

ADD FACINGS HORIZONTALLY

INCREASE SHELF COUNT

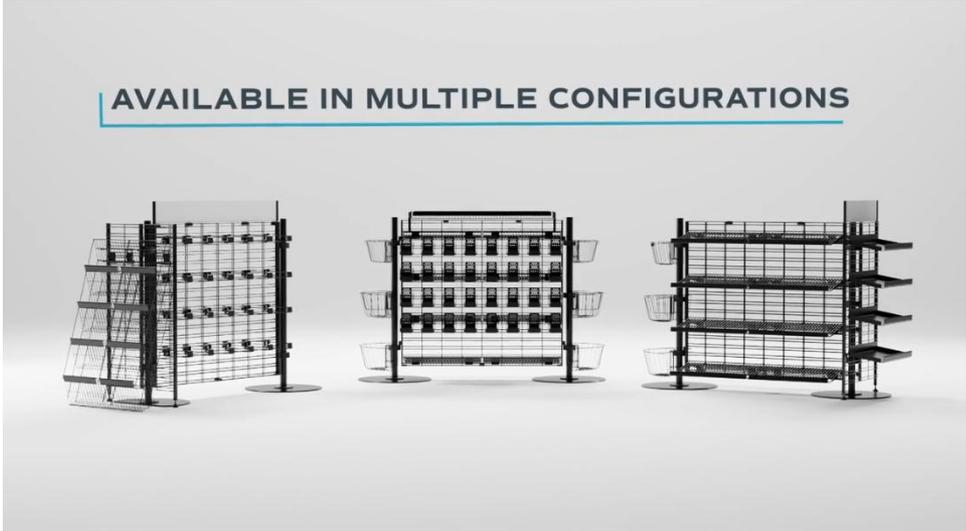

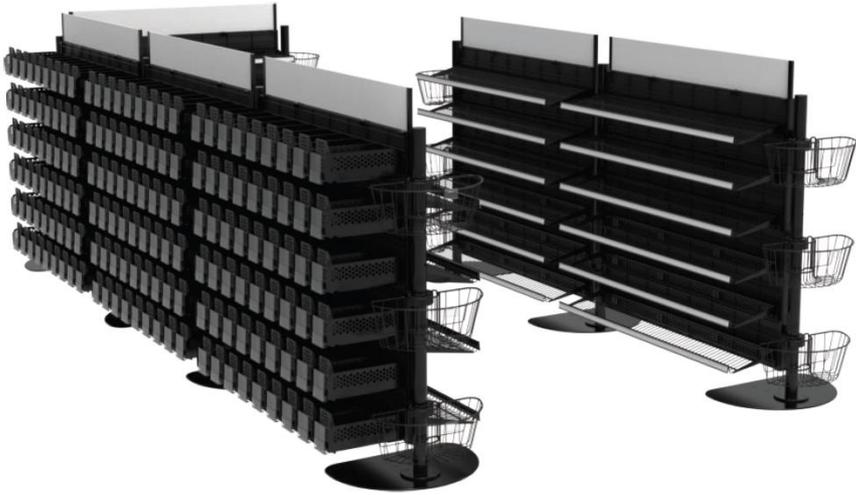

SEAMLESSLY COMBINE WITH YOUR DOOR

ENJOY STABILITY AND SECURITY

ProQueue™

Optimise sales and expand merchandising space. Strategically position products and promotions along our modular queueing system, ensuring that impulse items are always within reach.

MODULARITY

Modular design enables customized queue line and various accessories e.g. shelves, wire baskets, pushers, and peg hooks offer complete planogram flexibility.

ADAPTABILITY

Variety of angles to allow you to optimize queue line traffic flow, enhancing customer wait experience.

ADDITIONAL SELLING SPACE

Unique ProQueue™ configuration enables additional product placement compared to traditional queue lines.

100cm (90cmW Panel)

122cmH

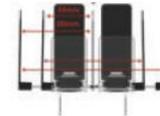

ProPusher™

For greater merchandising flexibility, space optimisation and efficiency add Hanging ProPusher to the system

142mm - 335mm

ProQueue™

ProCounterHub™

Versatile countertop display that creates a more organized and visually appealing product presentation. The system accommodates a large range of items encouraging impulse sales

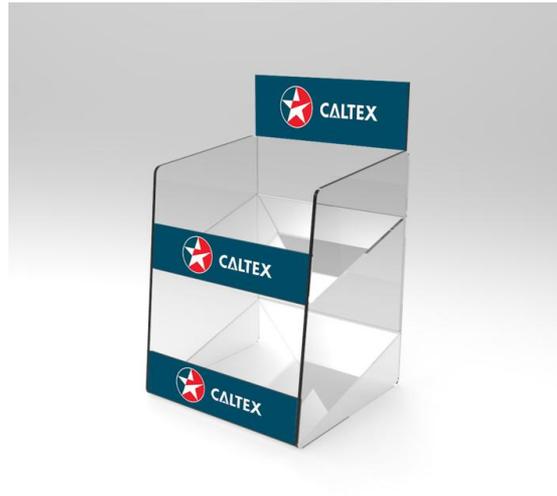

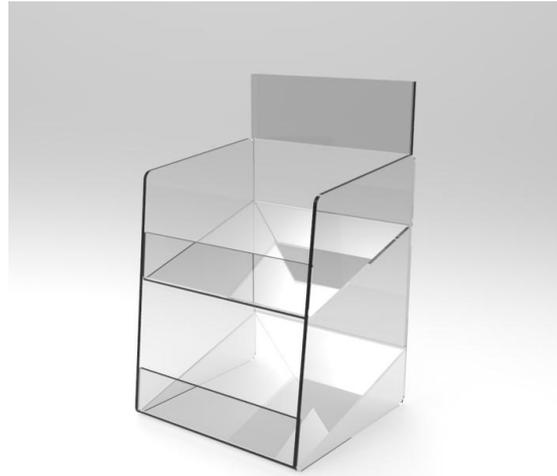

- Sits on top of existing counter
- Available in multiple configurations with a multitude of accessories
- Fully modular to suit any planogram
- Versatile solution for a variety of spaces

TWO-TIER COUNTER UNIT

This proven design is currently used by several Convenience retailers and brand sponsorship has delivered an almost immediate return on investment.

- Material: Acrylic
- Radius front edges.
- Interchangeable graphic header.
- Interchangeable graphic fronts.
- Fronts are datastrip size.
- Low Cost.
- Local or Offshore production.

INTERNALLY ADJUSTABLE DUMP BIN

Unique design which allows different sized products to be merchandised effectively.

This permanent freestanding Dump Bin with 'interchangeable A4 graphic sleeve' has four internal compartments that are height adjustable.

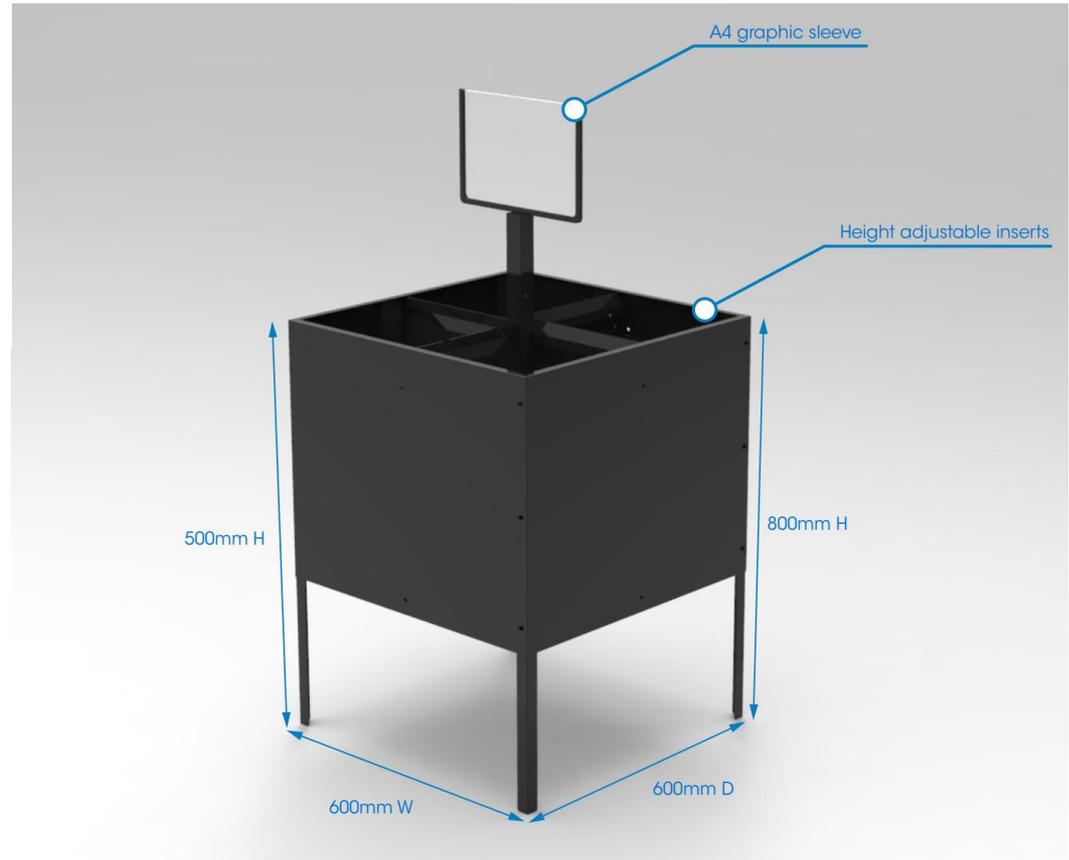

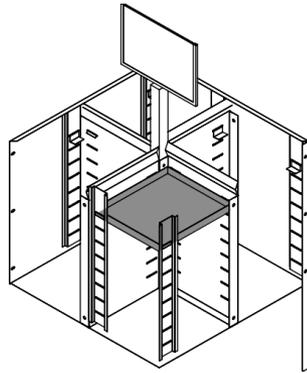

The unit can be scaled to any size.

Internal View:

4 x height adjustable compartments.

Suits a large variety of product types.

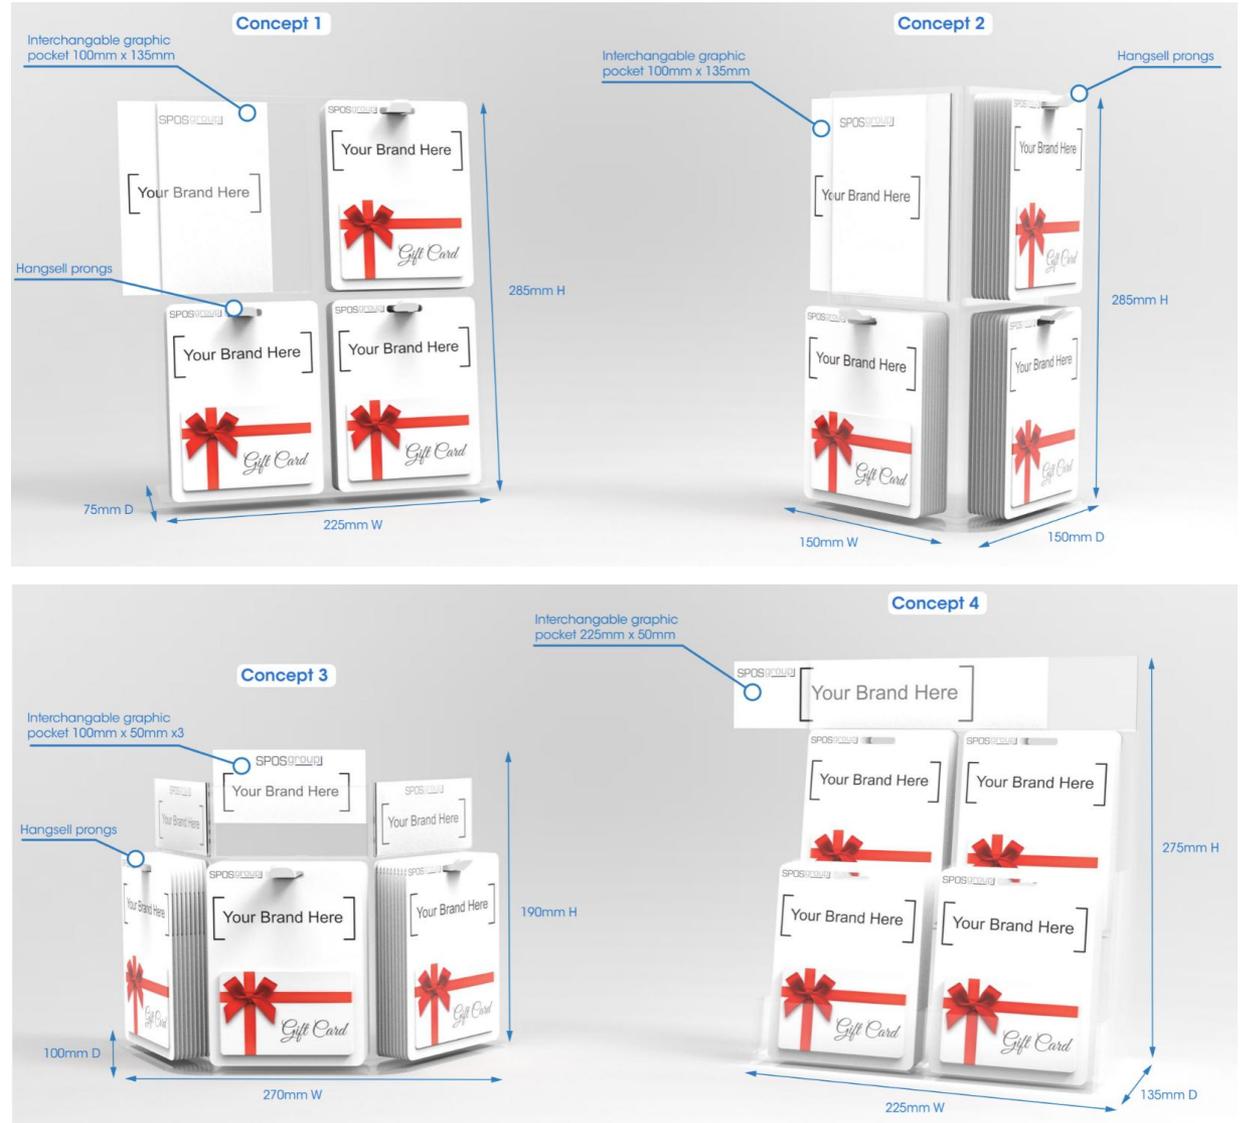

Variety of colours and finishes.

GIFT CARD COUNTER UNITS

Custom and pre-designed displays that can be produced in small or large volumes locally with short lead-times or offshore for larger roll-outs.

- Frame: Acrylic
- Hooks: Removable & injection moulded
- Multiple configuration options
- Interchangeable graphic panels

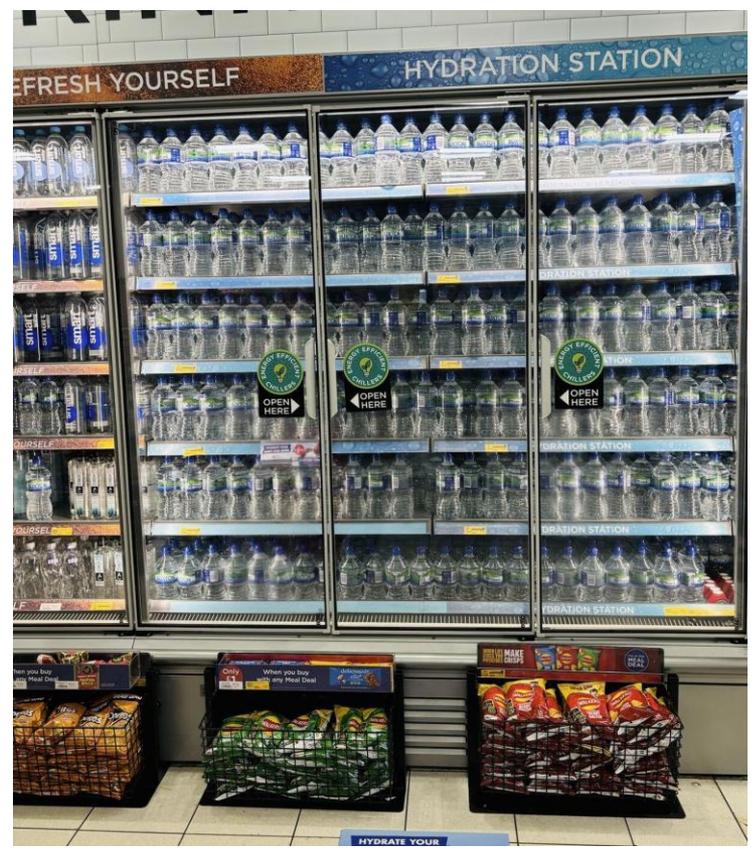

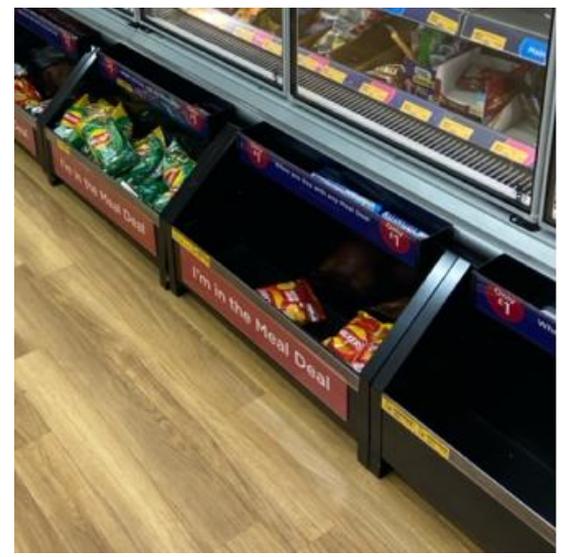

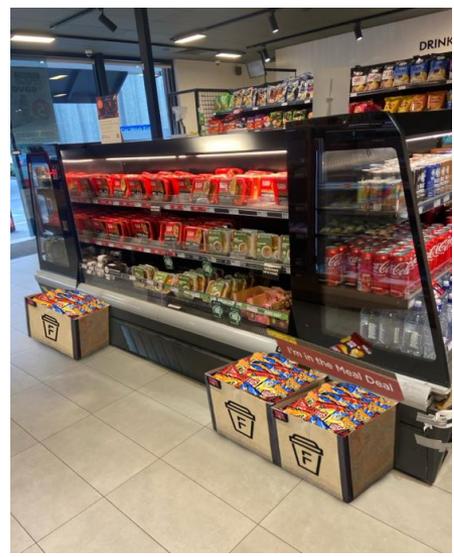

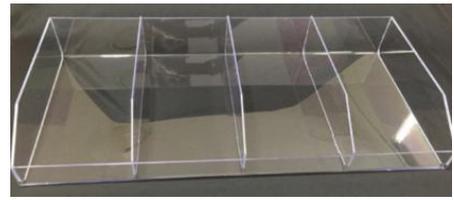

COMPACT IMPULSE DISPLAYS

Deployed near fridges, these types of units are designed to drive impulse sales.

- Acrylic trays for fridge tops and inside fridges
- Suction cup units for fridge doors
- Compact floor units

Pre-designed and production ready.
Custom options can be designed to suit.

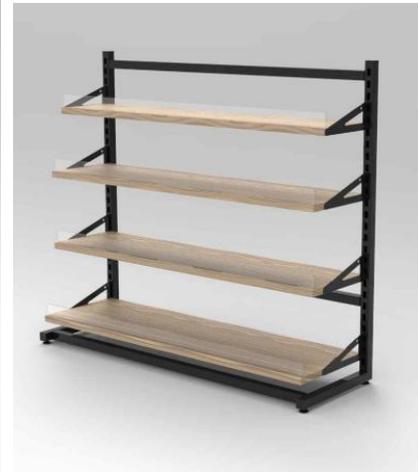

COMPACT COUNTER HEIGHT GONDOLA

This low-profile compact system is designed to provide additional merchandising options, including under the front counter if shelving doesn't exist.

The smart bracket allows shelves to be flat or angled.

- Customisable dimensions.
- Powder-coated metal frame
- Shelves can be flat or angled
- Variety of shelf finishes
- Variety of frame colours/finishes
- Flat packed for freight efficiency
- Acrylic retainer and data-strip
- Lockable castors can be added

ASSET PROTECTION SOLUTIONS

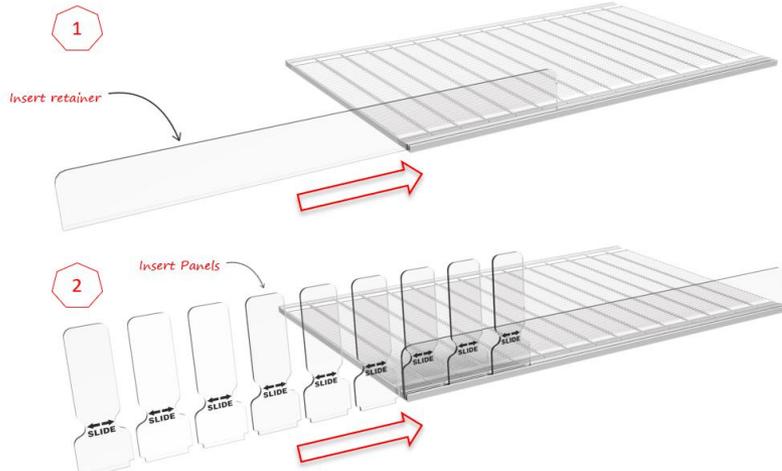

ANTI-SWEEP HOOK RANGE

- Perfect for Confectionery and Health & Beauty
- Single & Double Prong options

FLEXROLLER with SLIDE-GUARD

- Perfect for Health & Beauty
- Self fronting with Anti-Sweep Protection

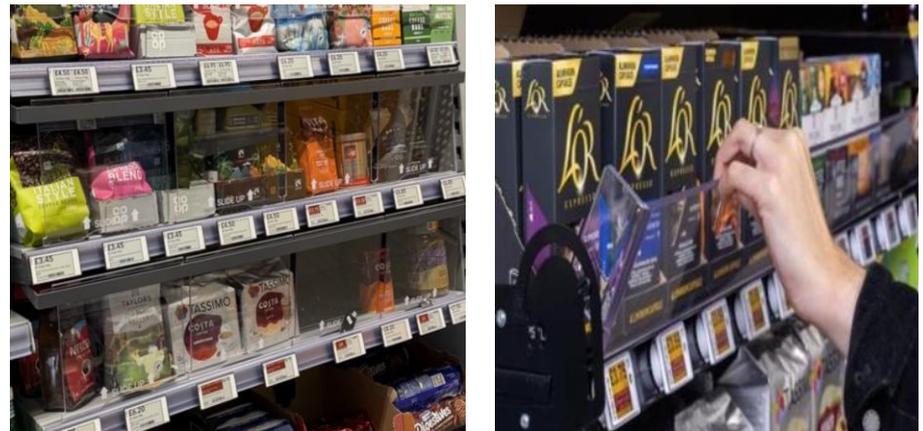

CANOPY SYSTEM with PUSHERS

- Perfect for Health & Beauty
- Tested and proven with Coles and Woolworths

ANTI-SWEEP CLEAR FRONT RANGE

- Suitable for all Categories merchandised in shelves
- Forces two-handed operation to shop items

TOBACCO DISPENSING UNIT

This unit is designed to provide a legislation compliant solution for storing, dispensing and keeping stock safe.

An optional Digital Screen acts as both a pricing board and a promotional vehicle that can create a revenue stream.

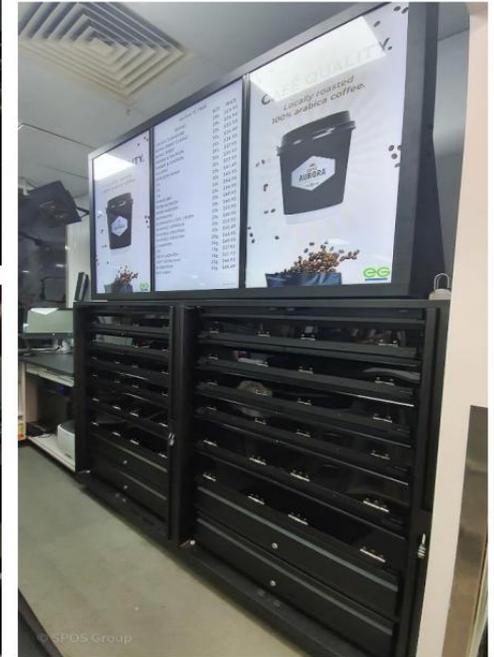

The unit utilises a shelf management system, the opaque hinged flaps restrict public visibility, the draws allow easy restocking and the front doors recess into the sides for use during trading hours.

- Drawer System with dividers and pushers to ensure that the drawers remain tidy and products are easily accessible
- The smart design which has two flaps per drawer ensures that Cigarettes are not displayed
- The unit locks securely for times when sites aren't trading
- Large Digital Screen displays pricing and can be centrally updated to ensure consistency and timeliness across multiple sites

Images show the Dispensing Unit with the front doors unlocked, open, recessed and ready to trading

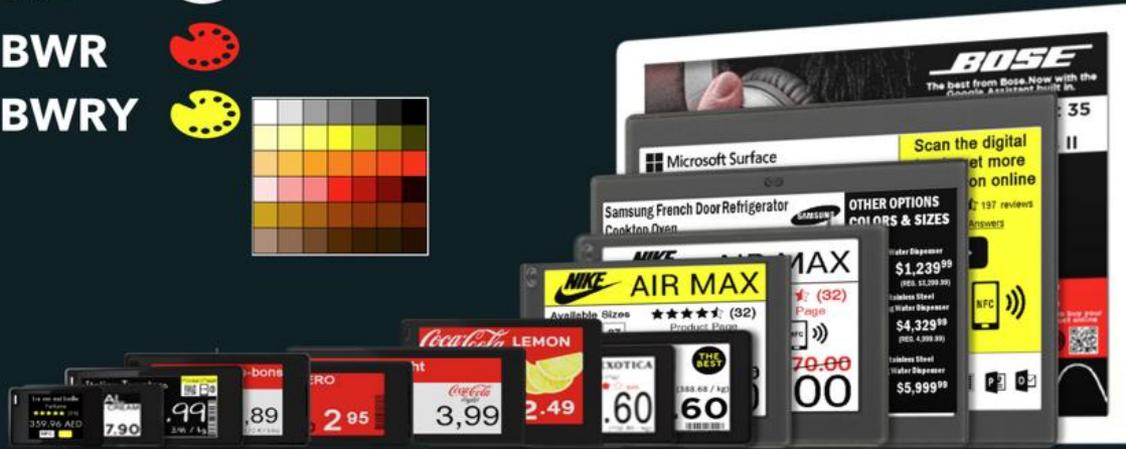

REAL TIME PRICING & STORE CONSISTENCY

Our partnership with the worlds largest ESL manufacturer is well established. Together we offer a complete end-to-end solution ...

- Leading edge technology and support
- Custom deployment equipment
- Warehousing, distribution and installation

Largest range of digital labels

OPEN FORECOURT UNITS – SHELF & DUMP BIN

Compact with a smart multi-functional design. The units also have lockable castors which allows them to be put inside when the site isn't trading.

Height adjustable removable shelves and separate front panel enables the unit to be configured in several ways ...

- **Shelved Unit** for more standard items such as bulk beverages.
- **Dump Bin Style Unit** (where a top shelf can also be used) for 'bulky items' such as heat beads.

- Powder coated metal construction
- Interchangeable graphic frames
- Graphic frame can be full length
- Height adjustable removable shelves
- Additional (removable) front panel
- High quality lockable castors

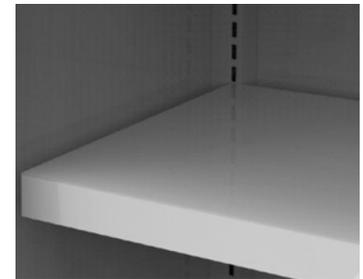

Standard Size: 700mmW x 600mmD x 1000mmH excluding 250mmH header (can be custom sized)

LOCKABLE FORECOURT UNIT WITH VERTICAL RECESSED DOORS

Uniquely designed multi-purpose outdoor merchandising solution that drives sales during trading hours and locks securely during non-trade periods.

Features:

- Lockable doors that open and recess into the body of the unit
- Height adjustable/removable shelves
- Interchangeable side panels and header
- Adjustable feet
- Powder coated metal construction
- Optional front retainer for the base shelf

Standard Unit Size:
900mmW x 1010mmH x 700mmD
(Header adds 250mm when raised)

Materials:
Acrylic, PETG, Polypropylene, Polycarbonate & Vacuum Forming

Ice Cream Clip

This ticket holder clips onto the wire inside chest freezers and provides a double sided ticketing solution.

CUSTOM CABINETRY, INFILL UNITS & FRIDGES

Custom Cabinetry and In-Fill Units have become a core competence in recent years and this project for Mobil (NZ) is a good example.

SHOP IN A BOX 'complete store and one point of contact'

SPOS identified an opportunity several years ago and developed a unique fit-out system to suit small format retail. The suite of modular units come together to create a complete store to suit the stores footprint.

storeinabox

retail fit out system that reduces cost, closure time & complexity
